

Welcome to the SME Financial Management Toolkit

Resource Library

Resources to help you manage
your business better

Financial Modeling

This **SME Financial Management Toolkit** is an online financial management tool developed in partnership with Enterprise Singapore and RSM Corporate Advisory Pte Ltd (the corporate advisory unit of RSM in Singapore). The key objective here is to allow SMEs in Singapore to analyse their own financial management capabilities and to provide businesses with resources such as articles and templates to improve their business management from a financial perspective.

This tool is provided free-of-charge but one-time registration with a valid email address is required. Please read the [Terms of Use and Privacy Notice](#) should you wish to use this Toolkit.
