### About

## About Wireless@SG for Businesses

Businesses and venue owners who desire to provide free Wi-Fi to their patrons are encouraged to partner operators to extend Wireless@SG service within their premises on commercial arrangements. Services such as targeted advertising, office communication suite and Software-as-a-Service (SaaS) are some of the services that the operators could offer. These are on top of the existing enterprise services such as advertising, location-based services, cashless payments and facility monitoring.

By being on-board the Wireless@SG programme, they can leverage on Wireless@SG's standardised and secured login mechanisms (i.e. SIM Login). In addition, they could also achieve cost efficiency to access their own enterprise services over the same Wireless@SG network.
